- Samba is a Brazilian music genre. It was originated in the Afro-Brazilians communities of Rio, in the early 20th century. Samba is considered one of the most important cultural phenomena in Brazil. It is included in the Portuguese language at least since the 19th century, and the word "samba" was originally used to designate a "popular dance". Over time, its meaning has been extended to a "batuque-like circle dance", a dance style and also to a "music genre".
